NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable though school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable though school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable though school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable though school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable though school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable though school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.

NOTE: a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable through school's scores and district non-academic data for the baseline years 1998-1999 and 1999-2000.

d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

w = State Board approved school configuration waiver for calculation of accountability scores.
